Bank President Palmer Accused of Silencing Him.

A Sensation in the Mortgage Forgery Case.

Lively Proceedings Before Judge O'Brien This Morning.

After the news was received at the hospital confirming the worst fears, the scenes at the depot were heartrending.

Several hundred persons assembled as the report spread that the train was approaching. Then a rush was made for the platform. A line of policemen and railroad employees was drawn up to keep back the crowd. It was then reported that the wounded were aboard and were to be taken on to Mill Creek, near the hospital, there to be transferred. James E. Bedell, who realized over a quarter of a million by forging mortgages, created another sensation in Supreme Court there to be transferred.

One desperate man hearing this sprang forward and with an awful imprecation declared that his family were on the train, and that any attempt to keep him from them would cot a life. Chambers this morning.

Last Friday he was brought before Judge Morgan J. O'Brien on a writ of habeas corpus and was sworn to testify in the action brought by his former employers, Shipman, Barlow, Larocque & Choate, against the Bank of the State of New York to recover a portion of the large amount of which he had robbed them by his forgeries, The examination was adjourned until this

morning, when Bedell was again produced so it went. in Court by Tombs Keeper Frank Smith.

Cousiderable time was spent in an argument as to the extent of the examination between Elihu Root, representing the plaintiffs, and William Allen Butler, J. S. Cadwallader, Stephen B. Nash and W. Hildreth Field, who represent the several banks whose interests are involved in the suit.

volved in the suit.

This question being settled, Mr. Root called Bedell to the stand.

The little forger, who had been sitting between Keeper Smith and his brother, Charles Bedell, arose and stepping to the bar, asked:

"Will Your Honor permit the witness to
make a statement, and that is that I most respectfully, but firmly, decline to testify in
this case.

Mr. Root was dazed and looked his aston ishment,
Counsellor Cadwallader smiled and asked
him jokingly: "Why didn't you tell us of
this before?"

this before?"
Plaintiffs' counsel didn't relish the joke.
Bedell is his most important witness and on
him depends almost entirely the recovery
of the large amount of money which Shipman, Barlow, Larceque & Choate have lost,
He demanded that the witness take the
stand, and Bedell was required to do so.
"What is your name?" was Mr. Root's first
question.

I decline to answer," was the forger's reply.
Or what ground do you decline?"

"I decline to state the ground."
Mr. Root asked the Court to direct Bedell to answer, but he turned to Judge O'Brien and said firmly: "I respectfully refuse."

The witness was then shown one of his forged checks made payable to the order of Thomas Muir, and was asked to examine it and to say if the indorsement on it was made by him. He declined to do either. Mr. Root was

getting angry.
"How long is it since you came to the determination to decline to testify?" he

'I decline to state," was the reply of the imperturbable rascal. "Have you had an interview with any of the banks interested in the result of this action since you were sworn to testify?"

"I refuse to answer."
"Did you not have an interview with Frank Palmer, President of the Broadway Bank, in the Tombs?"
"I respectfully refuse to answer that question."

"I respectfully refuse to answer that question."
"In that interview did not Palmer reques you to keep your mouts closed regarding the facts in controversy in this action?"
Here Counsellor Field, who represents Mr. Palmer's bank, interposed with an objection, saying: "This is a surprise to me."
"To me too." snapped Mr. Root and insisted on his question, which was as satisfactorily answered as those which preceded it.
Mr. Root here made the assertion that he held in his hand sworn information that President Palmer, of the Broadway Bank, had visited Bedell in the Tombs and asked him to keep his mouth closed, and with the declaration he flirted a paper that looked suspiciously like an affidavit in the direction of the opposing counsel.
Check after check was shown Bedell, and he was interrogated with reference to them, but in each instance he refused to either examine them or to testify recarding them.

but in each instance he refused to either ex amine them or to testify regarding them.

Judge O'Brien asked the object of the further examination of the witness, and Mr. Root said that he wished to protect his clients by showing that he had exhausted

every recourse which he had to make the wit less testify. He then read a long list of the checks with forged indorsements, and incorporated them all in a single question, which Bedell re-

fused to answer, as he had the others.

Mr. Root then moved that the process of the Court be issued to punish Bedell for contempt, and asked that an adjournment be taken to a reasonable time to ascertain if the witness will repent of his contempacy.

his contumacy.

Judge O'Brien said that Bedell was unundoubtedly guilty of contempt, but that the process of the Court could hardly punish him, as he is already a prisoner on a criminal

charge.

Mr. Root insisted that it was for the interest of his chents to have every legal course taken to compel the witness to testify, and a commitment for contempt was ordered to The examination was adjourned for one

week.
After the scene in Chambers, Bedell was taken to Part I. of the Court of General Sessions, where he was on the calendar to plead to an indictment for the calendar to plead to an indictment for the calendar to plead to an indictment for the calendar to plead to an indictment for

the calendar to plead to an indictment for forgery. His arraignment was postponed until other indictments against him can be prepared, and he was returned to his cell in the Tombs.

Mr. Howe said to-day that he had undoubted evidence that Bedell laviahed money upon the frail fair, but he would not say who the women were, or particularize further, as he said that the revelation just now might injure his clients. His partner, Mr. Hummel, refused to say a word upon the subject to an Evening World reporter this morning. It was learned, however, that a considerable amount of detective work on the part of the firm has revealed the fact that Bedell and Dodge were companions in debauchery, if the latter was not implicated in the forgeries.

This revelation furnishes a motive for Dodge's suicide which is much more reasonable at the said of the forgeries.

Liberated from their Fetters

By the helpful, genial action of that most beneficent of aperients, HOSTETTER'S STOMACH BITTERS, the howels soon throw off the burden that paralyzed and weakened them, and resume their normal freedom of action. The action of the Bitters, unlike that of average purgatives, involves no griping or drenching. If it did purgatives, involves no griping or drenching. If it did it would, like them, be valueless for ordinary use. There is nothing ungentie or unnatural attending its opera-tion. Upon the liver, no less than the bowels, its action is most benign, promoting a healthful billous secretion, and directing out of the wrong and into the right obsauel. Conjointly with costireness, other bilious symp-toms disappear when it is systematically used, and the stemach is strengthened as well as regulated by it. Malarial complaints, rheumatism, debility, nervousness and kidney troubles are completely released by it. Shoop and appetite are invariably premoted by it.

Mr. Adams "piled on the agony" in opening the case to the jury, and concluded by calling the injured "Monks" as the first

McBride, instead of coming home, went into

"Once when I was sick in bed Robert came into my room and flourished a pistol in my face. He said: 'See what I've got!'

"Then he went out, and when my mamma came in I said: 'Lock the doors! Robert has been in here with a pistol and he may shoot us all.' So the doors were locked and papa was sent for to take the pistol away from Robert who had gone to bed.

His speeches have been enthusiastically re-

During the hour and twenty minutes that he spoke at Lockport last night, seven-eighths of his time was devoted to National issues.

The only State issue he spoke upon was high heense, and the applause which followed almost every point made by the speaker was significant.

The Governor was joined this morning by Secretary of State Cook, Adjutant E. M. Porter and George Raines, who, with Col. Jones, Col. McEwan, Mr. Juhan Ralph and The Wohld correspondent, will constitute his Indiana party. The Governor left Buffalo at 2 o'clock this afternoon by the Lake Shore road for Cincinnati, which he will reach at 5 o'clock to-morrow morning.

At 8 he will start for Mitchell, where at noon to-morrow he will make his first bow to an Indiana audience. an Indiana audience.

For the Fun of Seeing the Stones Roll. [SPECIAL TO THE EVENING WORLD.] WORCESTER, Mass., Oct. 11.—For some time part trains on the Boston and Albany Railroad have been fired upon by some persons as they passed through the net-abaghood of Rocadale.

To-day Detectives O'Day and Coby arrested a boy name: Benjamin Tucker, thirteen years old, for the offense. He confessed that he was the output. He said that he used to stand on the top of the Lawrence Bridge and throw stones just for the fun of seeing tuem roll on the cars.
